- Deployed and managed IIS 7 web server on Windows Server 2008
- ASP .NET configuration and management

Visual Schedule Builder Implementation Project- (<https://vsb.unt.edu>)

- Led application administration sector of 6 month project:
- Gathered and implemented requirements from end users and vendor
- Directed provision details of 4 Windows Server 2008 boxes and the setup details of DNS and F5 load balancing
- Installed and administered Apache Tomcat
- Modified Oracle database to accommodate vendor as needed

DARS/U.Achieve Upgrade Project -

- Managed application administration sector of project for 6 months
- Met bi-weekly with directors, stakeholders and colleagues to help finalize project requirements
- Continuously offered perspective on business logic to coalesce goal timeframe expectations
- Directed provision details of 6 Windows Server 2008 machines and required DNS and load balancing

SKILLS

Agile/SCRUM

Coding (OO, Function, Procedural, Scripting, etc)

Application Administration

UNIX (RH5/6, CentOS, Fedora, Solaris)

System Diagnostics

Data Analytics & Modeling

Unmanned Aerial Systems (Configuration and Deployment)

Creative Solutions

Project Management

Software Development

Software QA

Software Engineering

Working Independently

Strong Initiative

ADDITIONAL ACCOMPLISHMENTS

Professional:

- Active holder of FAA Airman Certificate with sUAS rating
- Active member of North Texas Drone User Group
- 3 years combined programming volunteer experience in FIRST Robotics program
- Events Coordinator for ACM chapter at university
- Secretary of Tau Kappa Epsilon chapter at university

Personal:

- Independent volunteer to feed and clothe the homeless of Dallas County
- Regular donor to the Denton Animal Support Foundation

INTERESTS

Software Development
 Robotics and Artificial intelligence
 sUAS (Small Unmanned Aerial Systems)
 Amateur Aerial Videography
 Charity Work
 Historical Tourism
 Motorcycles
 Off Road Driving
 Music Festivals
 Song Writing
